

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE (Case No. 01-1633-A)

In re A	oplication of:)
	Storhoff, et al.)) Examiner: TBA
Serial I	No. 10/612,422))
Filed:	July 2, 2003) Group Art Unit: 1645)
For:	Nanoparticle Polyanion Conjugates and Methods of Use Thereof in Detecting Analytes)) Confirmation No.: 6581))

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

SIXTH SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Sir:

In order to comply with discretionary regulations 37 CFR §§1.97 and 1.98, attached hereto is Form PTO-1449, copies¹ of the documents listed thereon. These documents contain information which the Examiner may consider to be important in deciding whether to allow the present application to issue as a patent.

- 1. WO 92/04469 published 19 March 1992
- 2 WO 90/02205 published 8 March 1990
- 3. Borman, *Chem. Eng.* News, December 9, 1996, pp. 42-43 (1996)
- 4. Tomlinson et al. *Anal Biochem*, Vol. 171, pp. 217-222 (1998)

In accordance with MPEP Sections 609 and 707.05(b), it is requested that each

¹To the extent that a document is listed and no copy of same is attached, then such document is not at the present time available to the undersigned or is available in the file of a parent application. If a listed document is not in the English language and an English translation is readily available, such translation is also attached; if translation is not attached it is not readily available to the undersigned. If a foreign language patent document is cited, and an English language equivalent is known to the undersigned, then such equivalent patent is also cited on the attached form along with the corresponding foreign language patent and a connecting arrow indicated therebetween; if no such English language equivalent is cited, then none is known to undersigned.

document cited (including any cited in applicant's specification which is not repeated on the

attached Form PTO-1449) be given thorough consideration and that it be cited of record in the

prosecution history of the present application by initialing on Form PTO-1449. Such initialing

is requested even if the Examiner does not consider a cited document to be sufficiently

pertinent to use in a rejection, or otherwise does not consider it to be prior art for any reason,

or even if the Examiner does not believe that the guidelines for citation have been fully

complied with. This is requested so that each document becomes listed on the face of the

patent issuing on the present application.

The present Disclosure Statement is being submitted in compliance with 37 CFR 1.56

insofar as an Examiner might consider any of the cited documents important in deciding

whether to allow the application to issue as a patent, but the citation of each document is not

to be construed as an admission that such document is necessarily relevant or prior art. No

representation is intended that the cited documents represent the results of a complete

search, and it is anticipated that the Examiner, in the normal course of examination, will make

an independent search and will determine the best prior art consistent with 37 CFR 1.104(a)

and 1.106(b) and, in the course of each search, will review for relevance every document cited

on the attached form even if not initialed.

Early and favorable consideration is earnestly solicited.

Dated: ______ Emily Miao
Respectfully submitted,

Emily Miao
